

Program Name:	St. Jude-VIVA Survivorship Series 3 Webinar #11
<b>Event Date:</b>	Friday, 13th September 2024
<b>Event Time:</b>	8:00pm – 9:30pm (Singapore Time)

## **Programme Synopsis**

## Lecture Title: Germ Cell Tumor

Dr Roma Bhuta, Brown University

The goal of this presentation is to review current management of pediatric germ cell tumors including acute and long term side effects of therapy. There is limited data on late effects of therapy in survivors of pediatric germ cell tumors, and much of what we know is extrapolated from well-established late effects in adult testicular germ cell tumor survivors. We will review the risk of ototoxicity, neurotoxicity, second cancers, and cardiovascular disease. We will also discuss what is being done to better understand long term side effects specifically in pediatric cancer patients and efforts that can be taken to prevent or reduce late effects.

**Presenter Bio** 

**Dr Roma Bhuta** 

Attending Physician, Pediatric Hematology-Oncology, Hasbro Children's Hospital
Assistant Professor of Pediatrics, The Warren Alpert Medical School of Brown University
USA

Dr. Roma Bhuta is a pediatric oncologist at Hasbro Children's Hospital/Brown University in Providence, Rhode Island. She is a member of the solid tumor team and the Director of Hasbro Children's Hospital's Cancer Survivorship Program. She received her medical degree from the University of Medicine and Dentistry of New Jersey and did her pediatric hematology/oncology fellowship and Master of Public Health at Brown University. She is an active member of the Children's Oncology Group Germ Cell Tumor Committee and the Malignant Germ Cell International Consortium.

**Organising Chair/Moderator** 

Dr Melissa Hudson

Member, St. Jude Faculty
Director, Cancer Survivorship Division
Co-Leader, Cancer Control & Survivorship Program
The Charles E. Williams Endowed Chair of Oncology-Cancer
Survivorship
St. Jude Children's Research Hospital
